Fast Bar Software

No Additional Cost

The Fast Bar software features are built around bar management and gives you the ability to quickly open and close checks from one screen and recall tabs quickly. You can effortlessly open tabs and store a customer name and payment information by simply swiping a credit card. The software automatically alphabetizes tabs that are accessible from multiple terminals. The point of sale system also has twelve built in hot keys that can easily be modified. A bar owner can set pricing levels for happy hour, lunch and dinner.
