

PCBancard

Take control of your business with Level 2 & Level 3 Processing

Who needs Level 2 & Level 3 Processing?

Businesses accepting commercial, corporate, business and purchasing cards will pay the highest fees to process those cards. Why? Because there are rewards attached to them. The more rewards, the more you will pay to process them. In fact, you will pay up to 4% to process these cards!

How does Level 2 & Level 3 Processing work?

PCBancard can help lower fees on these cards, simply because our software captures more information when the card is processed. You don't have to do anything different! We provide a specific software that supplies Level 2 & 3 processing, which lowers the risk to accept that card, and in turn will lower fees for the merchant. A rate of 2.95% can be instantly lowered to 1.8% in a matter of seconds.

“I will tell you, it has been such a change having a company that actually cares about us growing our business and helping us streamline a lot of what we are doing instead of just some company trying to make a dime off each transaction we run. I really appreciate it!”
