

# Retail-Ready POS Designed for Accuracy and Operational Control

Manage inventory, cash, and staffing with tools that keep retail operations running smoothly.

**Stock Tracking**  
Receive, track, and adjust inventory in real time.

**Optimized Order Workflows**  
Spend less time per sale with fewer errors.

**Drawer & Shift Tracking**  
Gain reporting transparency and control over cash transactions

**Cash Discounting & Surcharging**  
Offset processing costs and protect margins.

**Time Clock Management**  
Track employee punches by role and reduce labor mistakes.

**Integrated Payroll**  
Sync hours directly to Priority Payroll—no manual re-entry.

**Embedded User Guides**  
Minimize training and troubleshooting with self-serve support.
