

Grow Your Business with PCBancard

Local support. Real solutions. No runaround — just results.

★ Full-Service ISO

★ Local Representative

★ Competitive Rates

★ Fast Approvals

★ No Long-Term Contracts

WHO IS PCBANCARD?

We're not another faceless processor. PCBancard is an **INC. 5000-recognized company** — and we do things differently. We start by running your statement through **three pricing programs** so you can see exactly what you'd save. You choose the model that works for your business. Then we match you with the right setup — whether you process through a **terminal, gateway, or full POS system**.

1

WE ASSESS

We review your statements and show you exactly what you're paying — and where you're overpaying.

2

WE RECOMMEND

We match the right equipment and pricing program to how your business actually runs.

3

WE DECIDE TOGETHER

If it makes sense for you, we work together. If it doesn't, we'll tell you — no pressure.

3 WAYS TO TAKE PAYMENTS

Step 2 — We Recommend: we show you your savings three different ways. You decide what's right for your business.

OPTION 1

STANDARD RATE

Competitive interchange-plus rates. You pay a small fee per transaction, nothing more.

OPTION 2

SURCHARGING

A compliant surcharge on credit transactions. Cash and debit stay fee-free for your customers.

OPTION 3

DUAL PRICING

Show a cash price and a card price. Customers choose — you keep more.
