$0

$0 Equipment

Free terminal on any program. No upfront cost, no catch.

Zero Card Fees

Dual pricing means your customers cover the cost. You keep 100% of every sale.

Local Support

Jason is based right here in Pendleton, Indiana. Call or text anytime.

HOW DUAL PRICING WORKS FOR AUTO BUSINESSES

1. **Post two prices.** A cash price and a card price, just like gas stations have done for years. Customers choose.
2. **Cards cover the fee.** When a customer pays by card, the small processing fee is built into the card price. You pay nothing.
3. **You keep more money.** On $50,000/month in card volume, that's **$1,500–$2,000 back in your pocket** every month.
